**BREAKING:**

**9/11 Families, Experts Mount Unprecedented Challenge  
to NATIONAL INSTITUTE of STANDARDS and TECHNOLOGY  
in New Filing**

**from Architects & Engineers for 9/11 Truth**

April 15th, 2020

Family members of those who died on September 11, 2001, joined building experts earlier today in submitting a “request for correction” to the National Institute of Standards and Technology (NIST) regarding its 2008 report on the collapse

of [World Trade Center Building 7](#).

The request, which comprises more than 100 pages and five exhibits, represents an unprecedented challenge to NIST's report on WTC 7. With the ultimate aim of forcing NIST to reverse its conclusion that fires caused the building's destruction, the request covers eight separate items of information that it says violate the agency's information quality standards. Only by revising its "probable collapse sequence" can NIST correct these violations, the request contends.

Gaithersburg, MD 20899-3220

**Re: Request for Correction Under the Data Quality Act to NIST's Final Report on the Collapse of World Trade Center Building 7**

Dear Ms. Fletcher:

This petition is a request for correction of information disseminated by the National Institute of Standards and Technology ("NIST"). This Request for Correction (the "Request") is being submitted by 10 family members of people killed on September 11, 2001, by 88 architects and structural engineers, and by the organization Architects & Engineers for 9/11 Truth, Inc. (referred to herein collectively as "Requesters"). It is being submitted under Section 515 of Public Law 106-554 (commonly known as the Data Quality Act or Information Quality Act; herein referred to as the "DQA"), the Office of Management and Budget's ("OMB's") government-wide Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by Federal Agencies (the "OMB Guidelines"), and NIST's "Guidelines, Information Quality Standards, and Administrative Mechanism" (the "NIST IQS").

This Request is being submitted as a single document signed by multiple Requesters in order to avoid submitting duplicative Requests. However, each Requester reserves the right to appeal the outcome of NIST's determination of the merits of this Request either jointly or severally, in each Requester's sole discretion. Requesters prefer to be contacted via email through the designated representative of Architects & Engineers for 9/11 Truth whenever possible. Requesters also request that NIST not distribute the Requesters' contact information listed below to anyone not officially involved in addressing this Request. If this Request is published on NIST's website or elsewhere, a redacted version should be published omitting the Requesters' contact information.

The information that is the subject of this Request is NIST's *Final Report on the Collapse of the World Trade Center Building 7* (NCSTAR 1A) and NIST's *Fire Response and Probable Collapse Sequence of World Trade Center Building 7* (NCSTAR 1-9), collectively referred to herein as the "NIST WTC 7 Report." Secondly, NIST's webpage titled *FAQs - NIST WTC 7 Investigation* (referred to herein as the "NIST WTC 7 FAQs") is also the subject of this Request. The NIST WTC 7 Report can be found at the following NIST webpage: <https://www.nist.gov/el/final-reports-nist-world-trade-center-disaster-investigation> (last visited April 14, 2020). The NIST WTC 7 FAQs can be found at the following NIST webpage: <https://www.nist.gov/topics/disaster-failure-studies/faqs-nist-wtc-7-investigation> (last visited April 14, 2020).

Starting today, under the [procedure](#) governing requests submitted to NIST, the agency has four months to respond. If NIST elects not to take corrective action, it must provide a "point-by-point response to any relevant data quality arguments contained in the request." The request notes that if NIST does not provide a point-by-point response, NIST will have denied the request "in an arbitrary and capricious manner," which would set the stage for legal action to force compliance.

The request relies substantially on a [report](#) issued last month by researchers at the University of Alaska Fairbanks (UAF), who concluded definitively that the destruction of the 47-story WTC 7 was not caused by fires. Their extensive four-year computer modeling effort was followed by a robust peer review process, which included dozens of comments from the public as well as review by two external, independent experts.

The study was funded by Architects & Engineers for 9/11 Truth (AE911Truth), a nonprofit representing more than [3,000 architects and engineers](#) who have signed the organization's petition calling for new investigation into the destruction of the three World Trade Center towers on 9/11. AE911Truth is now spearheading the request for correction based on the findings of the study. Other signers of the request include 88 architects and structural engineers and ten family members of 9/11 victims.

"We are proud to have supported the University of Alaska Fairbanks and Professor Leroy Hulsey in conducting a genuinely scientific study into the reasons for this building's collapse," said Richard Gage, founder of AE911Truth. "Now that the study is complete, the request for correction will force NIST to reverse its outlandish conclusion that fires were the cause of the collapse."

For many of the family members, the request is their latest effort in a long journey to uncover the truth about the murder of their loved one. For others, it is their first time taking action.

"I was sixteen years old when my father was killed in the North Tower. In the past year, I've come to learn much more about his murder," said Kacee Papa, one of the ten family members to sign the request. "I would like to see the truth come out so that families can be aware, obtain justice, and above all ensure that nothing like this ever happens again."

AE911Truth is inviting more 9/11 family members, architects, structural engineers, and organizations representing building professionals to join the request for correction. Please email [RFC@AE911Truth.org](mailto:RFC@AE911Truth.org) if you are in one of these categories and would like to join the request.

### BRONZE PATRIOT

\$ 5 USD Donation:  
Your one-time BRONZE gift will get your first name, city in our April 30th "THANK YOU" shout-out addition of our newsletter!

### SILVER PATRIOT

\$ 10 USD Donation:  
Your one-time SILVER gift, you'll get a personal email response, in beautiful HTML format direct from our Editor-in Chief, tRB.

### GOLD PATRIOT

\$ 25 USD Donation:  
For your one-time GOLD gift, you can submit a question and we'll address it in detail here in our newsletter.

### **BACK ARTICLE REQUESTS - BECOME AN OFFICIAL QMOVEMENT SUBSCRIBER!**

We've been getting many requests for previous articles, especially those regarding the current COVID-19 pandemic. Many of these requests are because our articles have been forwarded from our official subscribers... AND WE THANK YOU FOR THAT! However, to make things easy and seamless, and to be listed in our official database, WE ENCOURAGE YOU TO BECOME AN OFFICIAL SUBSCRIBER! To do so, please click on the button below to be taken to our official QMOVEMENT website to subscribe. For back articles, please become an official subscriber, then email us at [back.articles@qmovement.org](mailto:back.articles@qmovement.org) and indicate the subject matter and we will email to you as PDFs. Please allow 72 hours to process.

Your privacy is guaranteed. We do NOT sell/give/trade your personal information to persons nor entities public or private. The QMovement newsletter "Trust the Plan" is free and will always be free. WWG1WGA.
