A QUESTION FOR OUR LOYAL READERS

Dear Subscribers,

We at QMovement have a question for you. But first, the backstory.... If you've been following Q and have your finger on the pulse of today's current political situation, then you know how the DeepState has changed everyone's life globally. We also know what Q has said, that the internet and various Social Media platforms will be under attack. **We already know how much conservative view-points are being censored and shadow-banned... and most likely, if you type certain words or phrases in your emails, then there's a good chance you are being surveilled.**

Domain names, used for websites and email, that end in the Top-Level Domain (TLD) such as ".com", ".net", ".org", as well as ".edu", ".gov" and ".mil" are all under U.S. jurisdiction and can easily be shut-down by "**big brother**". Furthermore, if the host server is physically located on U.S. soil and/or is owned by a U.S. legal entity, then it can easily be seized, monitored or spied upon. This is especially true if you are using a free service such as **Gmail, Yahoo, Hotmail, AOL** and others.

**QMovement** currently uses a non-U.S. based ("offshore") server. However, we are going to soon make the switch from the ".org" TLD to ".io". This TLD is not based in a U.S. jurisdiction and actually represents "Indian Ocean", completely outside of Yankee control. **We decided on ".io" as it also goes with part of our tagline, "Free Thinking. Intelligence Optimized".**

So here's the question we need to ask you: Would you, our loyal reader, be

[interested in having your very own, highly secure, private, offshore  
"@qmovement.io" email address?](#)

We are considering doing this as a way to generate revenue to curb our daily newsletter publishing costs.

**[IF YOU ARE INTERESTED IN THIS OFFER, CLICK HERE AND PRESS SEND:](#)**
